Note:
HOME

1) WeBet333 must re-design to make it more bigger and attractive (with animation), example like KKslot logo. Logo 333 must able to spin like slot game machine.

1.1) background color - prefer dark color like (purple, grey, dark blue and etc)

2) current date and time show on top-left of the web (as shown as example)

3) Deposit, withdrawal n transfer must able to verify two situations. One, user must log in to their account first before make any deposit, withdrawal or transfer. Prompt "Please log in" on top if user click either one of the selection. Two, after log in the system will check this user contain bank acc or not. If no, auto bring user to "Register bank account" page. If yes, then only proceed to deposit, withdrawal or transfer page.

4) Prompt error message if user enter invalid account or password. Successful log in refer to "Home VER (after log in)" 2nd page.

5) if user tick remember, system will auto fill in user ID and password with ***** for the user whenever the user open this web for the next time.

5.1) If user enter forgot password, pop out a box to request email from user (refer to "Home VER forgot password") page.

6) Register button must able to bring user to register page.

7) support Language -English & Malay (default English)

8) default "Home" page.

9) Sportbook, Live Casino, Lottery (second phase) - put coming soon sticker, turn it into grey color image when mouse point on it.

10) phase 1 - user only can select "Home, Slot game, Promotion, banking information and download"

11) Promotion button must able to bring user to promotion page. Same goes to banking information and download.

12) Notice board - animation (slowly move the words to the left with moderate speed. Stop the words when mouse point on it)

13) Image background - similar design but with different characters (characters images will be provided)

14) Promotions slide - able to slide 10 pages or clicking on the circle.

15) Clicking at the promotion slide will bring the user to promotion page.

16) How to Win?... is just a title. No function for that.
